

PROFESSIONAL SUMMARY

Founder of Triviq, an independent product and engineering studio. Full-Stack & Mobile Software Engineer with production experience shipping web and React Native applications, including the Streefi food-tech platform. Skilled across frontend, backend APIs, cloud infrastructure, payments, authentication, analytics, deep linking, and third-party integrations, with a strong background in Next.js, React, React Native, Node.js, AWS, DynamoDB, and Supabase — and a track record of taking products from development through production.

EXPERIENCE

Streefi Private Limited

Co-Founder & Product Engineer

Gandhinagar, Gujarat | Feb 2025 - Present

- Architected and built Streefi across React Native, Next.js, and backend APIs, spanning the customer app, web platform, vendor application, and admin systems.
- Built production integrations for Razorpay payments, UPI app detection, authentication, QR/deep linking, OTP, Google/Facebook login, analytics, and marketing attribution.
- Designed cloud infrastructure using AWS (DynamoDB, S3, CloudFront, Lambda, Amplify, Secrets Manager, EC2), alongside Vercel, Cloudflare, Supabase, and Redis.
- Implemented Meta Developer and WhatsApp Cloud API systems, including automated messaging workflows, campaign tooling, and Meta Conversions API tracking.
- Developed growth infrastructure covering Google Analytics, Mixpanel, Microsoft Clarity, app-install attribution, campaign/source tracking, SEO, and search indexing.
- Built and maintained the Streefi website with Next.js, React, and TypeScript, including 3D/interactive experiences, CDN-backed assets, and production deployment.

BrainyBeams Technology

Native App Developer

Ahmedabad, Gujarat | Nov 2024 - Apr 2025

- Developed and maintained native/mobile application features, working with API integrations, application state, authentication, and production debugging.
- Implemented reusable mobile interfaces and integrated backend services while troubleshooting device-specific and production issues.
- Worked across application development and API-connected workflows, contributing to feature implementation and maintenance.

Triviq • Independent / Freelance

Founder & Product Engineer

- Founder of Triviq, an independent product and engineering studio building web, mobile, SaaS and custom software for clients while developing products internally.
- Services: web and platforms, mobile apps, SaaS products, AI and automation, business software, games and interactive experiences.
- Delivered work includes the Streefi platform and an anonymised QR referral and lead-attribution platform.
- Also takes on selected freelance work (product builds, mobile applications, SaaS, custom business systems and interactive web experiences), directly or through Triviq.

KEY ACHIEVEMENTS

- **Co-Founded and Engineered Streefi** — Built and shipped a multi-platform food discovery product spanning React Native, Next.js, vendor systems, admin infrastructure, and backend APIs, taken from architecture through production

deployment.

- **Published IEEE Research Paper** — Co-author of “AES-Driven Image Encryption: Overcoming Security and Transmission Challenges,” published in the proceedings of the 2024 IEEE Delhi Section Flagship Conference (DELCON).
- **Built Production Payment Infrastructure** — Implemented Razorpay custom UI, UPI intent/app detection, payment verification, dynamic QR flows, and payment-related analytics, including device-specific payment behavior handling.
- **Engineered End-to-End Cloud Infrastructure** — Designed and deployed production services across AWS, Vercel, Supabase, and Cloudflare, using DynamoDB, S3, CloudFront, Lambda, Amplify, EC2, and Secrets Manager for storage, compute, deployment, and asset delivery.
- **Built Growth, Attribution, and Communication Infrastructure** — Implemented Meta App Install and Conversion tracking, Conversions API, Google Analytics, Clarity, campaign attribution, deep linking, QR-based acquisition tracking, WhatsApp Cloud API, and automated email/authentication integrations.

CORE COMPETENCIES

React.js · Next.js · React Native · TypeScript · JavaScript · Flutter · Three.js (beginner) · React Three Fiber · GSAP (beginner) · Motion graphics (beginner) · Tailwind CSS · HTML5 · CSS3 · Node.js · Fastify · FastAPI · WebSockets · REST APIs · Authentication & Authorization · WhatsApp Cloud API · Google Analytics 4 · Microsoft Clarity · App Attribution Tracking · Deep Linking · SEO Optimization · DynamoDB · Supabase PostgreSQL · PostgreSQL & Prisma · SQL · Redis · Firebase · RevenueCat · Technical Product Development · Mobile App Publishing · Vendor Platform Architecture · Payment Systems · Marketing Technology Integration · Meta Ads Technical Setup · Meta Developer Platform · Razorpay Integration · OAuth (Google & Facebook Login) · AWS Lambda · AWS S3 · AWS CloudFront · AWS Amplify · AWS EC2 · AWS Secrets Manager · Cloudflare · Vercel

EDUCATION

Pandit Deendayal Energy University (PDEU)

B.Tech. in Computer Science & Engineering | CGPA: 8.01

Gujarat | 2021 - 2025

Parth Institute

Higher Secondary (11th-12th) | 81.5%

Vadodara, Gujarat | 2021

Alembic School

Secondary Education (1st-10th) | 78%

Vadodara, Gujarat | 2019

PUBLICATIONS

“AES-Driven Image Encryption: Overcoming Security and Transmission Challenges”

IEEE Delhi Section Flagship Conference (DELCON 2024) · Co-author · New Delhi, India · Nov. 2024

DOI: 10.1109/DELCON64804.2024.10866928

Developed an AES-based image encryption technique addressing security and transmission efficiency.

“Image Flare: An Interactive and Dynamic Learning Platform for Intuitive Image Processing”

Multimedia Tools and Applications — Springer · Co-author · Research & Software Development

DOI: 10.1007/s11042-026-21469-2

Developed an interactive image-processing learning platform with real-time filtering, restoration, histogram analysis, image enhancement, and comparative visualization, supported by a behavioral study evaluating its educational impact.
